The kinds of results that some of these Critical Access Hospital teams were able to produce [with PHA guidance] tell us that Lean healthcare methodologies can be applied successfully throughout the healthcare industry.

— Don Kelso, Executive Director Indiana Rural Health Association

LEAN SIX SIGMA SOLUTIONS

Whether it’s patient flow, productivity, the discharge process, hospital-acquired conditions or patient readmissions, if the problem you are grappling with can’t be solved internally, a seasoned team of Lean Six Sigma for Healthcare Black Belts from Purdue Healthcare Advisors will assess your situation and assist with implementing improved processes.

Our service portfolio includes several problem-solving approaches to meet your needs:

• Rapid Improvement Events/Kaizen (“Continuous Improvement”)
• Project facilitation and mentoring to accelerate existing improvement initiatives
• Root Cause Analysis for sentinel events
• Waste reduction
