CMS PRIMARY CARE ADVANCE
Alternative Payment Opportunity

WHAT IS THE CMS DIRECT CONTRACTING PROGRAM?
Direct Contracting is an Advanced Alternative Payment Model (AAPM) opportunity that focuses on reinvesting dollars back into primary care.

WHAT IS THE CLOVER ASSISTANT TOOL?
The Clover Assistant is a web-based application powered by clinical and claims data on Medicare beneficiaries. It supports you by:

- dynamically surfaced up-to-date, patient-specific information, including care gaps, medications, and potential diagnoses.
- providing you with a comprehensive view, populated with data from anywhere aligned beneficiaries have received care.

PARTICIPATION OPTIONS*

Option 1: FFS revenue increases for aligned Medicare beneficiaries by at least 30%

Option 2: Shared savings, no downside

Option 3: Shared savings with downside risk

*Participants can leave the program with written notice.

TYPES OF SUPPORT

Tier 1: Dedicated Quality Improvement Advisors (QIAs) to help you implement the program.

Tier 2: Tier 1 plus assistance to align value-based incentive strategies and activities as well as optimize workflows and processes to achieve success in population health.

Tier 3: Tier 1 and 2 plus access to national physician experts to guide adoption/implementation of evidence-based clinical programs that address the needs of your vulnerable, high-cost patient populations.

Benefits to You

Financial
- Earn at least 30% more revenue per visit on aligned Medicare FFS beneficiaries
- Gain additional revenue by receiving a PMPM fee for up to 5 years

Reporting
- Participate in a CMS AAPM without taking on risk
- Receive 5% AAPM MIPS bonus
- Potential exclusion from reporting MIPS

Resource
- Dedicated QIAs to help you drive improved quality, health, and cost based on your selected initiatives

Technology
- No mandatory quality measure selection or reporting requirements
