

2021 PROMOTING INTEROPERABILITY AND IMPROVEMENT ACTIVITIES CATEGORIES

An Upcoming Web Event

To register for the event click on one of the links provided below.

TUESDAY, JULY 20 • 3:30 PM – 4:30 PM ET
THURSDAY, JULY 22 • 11 AM - 12 PM ET

Attend the 2021 Promoting Interoperability and Improvement Activities Categories web event to learn more about these categories. Meeting the measures contained in the Promoting Interoperability category is challenging, especially due to multiple responsibilities assigned to staff in small practices resulting in time constraints. In the Improvement Activities category it is important to choose the best activities for the practice as well as understanding the information needed for data validation.

This web event will focus on how to understand your Promoting Interoperability and Improvement Activities measures and how to meet them. Hear from experts who will share tips on meeting these measures.

Participants will learn more about:

- Promoting Interoperability
 - What's New
 - Measures
 - Maximize PI Score
- Improvement Activities
 - What's New
 - Maximize IA Score

This event is designed and ideal for:

- MIPS-eligible clinicians from solo and small group practices with 15 or fewer clinicians
- Practice managers and staff from small group practices tasked with submitting MIPS data and/or persons supporting small group practices that are preparing for MIPS data submission

- Remember to review information on the Quality Payment Program at <https://qpp.cms.gov/>
- Locate your technical assistance contractor at <https://qpp.cms.gov/resources/small-underserved-rural-practices>
